

5 Things You Should Know About Compumatrix

Compumatrix? What is Compumatrix? Compumatrix is a web technologies company. It is global. It is multinational. What does these words mean? Compumatrix develops solutions to enable people. We build enabling technologies. These technologies is fitted to you like an armor and these are equipped with tools.

A global business means we are present in several countries worldwide. Not in the form of buildings or four-cornered office spaces as those we consider obsolete. It is within each and every one of us, on our gadgets, on our PCs. It's the 21st Century. Globalization is breaking every barrier of trade and it has changed a lot on the way we do business with each other, wherever you may be in the world. Multinational means we work as a member of humanity and no longer divided by our race. We are one nation. All motivated by our desire to uplift others as we uplift ourselves towards a common goal of achieving success.

For those who have been with me since I founded this company, have you ever asked yourself what kept you here for so long? Deep in your hearts, you believe. Deep within, you dream. But I tell you, it is time to stop dreaming. Wake up! And start doing something that will matter to you and your loved ones.

We have been through a lot these year of 2014, but failure is never part of what we have accomplished. You know that for a fact. Our business is here to stay and it will uplift you. But to be uplifted, you must work for it using the tools we provide you. Using the words we share with you. When I created this program, I know it will help a lot of people in all corners of this world we live in, where seemingly surrounded with the challenges. It's time to break free and lead your

business to the next level.

In order to do this, you must understand the 5 facts about Compumatrix.

1. It's a Direct Selling Business

We sell virtual prepaid cards. These are no ordinary cards. It's multipurpose and it's available globally through each member of our program. What we intend to do with the card is to facilitate and enable people to have access to an online payment solution so that they can participate in this phase of globalization. We aim to reduce transaction processing to zero while at the same time provide a lucrative business that you can run on your own, as a team or as a business and employ millions of individuals all over the planet. If there's one industry that will always be on the forefront of this globalization: It is the payments industry. That's why it is a Trillion Dollar Industry.

2. You are part of the Co-Production Process

We have made it clear from the very beginning that in order for you to be able to earn more, we have removed the middle man, the whole seller and called upon each one of you to be part of the co-production of the cards. With this initiative, it provides you a better return on your investments since the operating costs becomes yours.

3. You are Paid in Virtual Currency

This is not new to us. It was only a few years that it had been formally accepted. We knew about this even during our Eonpay program. Now, the virtual currency industry is booming. Although there may be some that still thinks that this is just a fad, they are totally mistaken. Countries around the world are working round the clock to create a feasible regulatory framework for virtual currencies. These movements towards regulations validates this industry.

You will still find a lot of people that may be against or just confused about this industry even if they have been using virtual currencies through their phones, credit and debit cards, loyalty cards, and gift cards. They only have misconceptions that are totally curable by their willingness to learn and proper guidance and education. One thing is certain, the Virtual Currency Industry is here to stay and continue to evolve and innovate the way we pay. Now we can build our incomes based on real productivity and not in debt.

4. You signed up to run your own Online Business

As a member of Compumatrix, you should know what you signed up for. You signed up to be an online entrepreneur. And like any other business, this requires your passion, excitement but most of all, equip yourself with knowledge. Rule number 1 of entrepreneurship is you have to love what you do. The industry we're at has a very competitive landscape. Your primary advantage is that you're on the ground floor. But we have also designed this program to work favorably even for those who will be joining us at a later stage.

Every business needs customers. In order for you to attract customers, you must show them your strong passion and dedication. You must have an answer to every question. Continue to educate yourself in order for you to break through barriers and be able to jump over any hurdles to see your vision through.

5. This is not a get rich quick scheme

Even if you see your account balances seems to increase more rapidly than an ordinary savings account, it is not a guarantee that you are getting rich quick. You still need an extra effort to do the primary purpose of this business, to help manufacture the cards and start selling. In order to sell, you need customers. In order to get customers, you need to market, educate and inform your prospects. If you think

there's an easy way to do that, then send me an email.
