

The Compumatrix Portal

Compumatrix created a portal for people to create a virtual currency out of their online productivity, time, marketing effort and money. It's not an imaginary number. It's a digital (intangible) asset which now bears the properties or elements found in bitcoin or bitshares.

The only thing that sets us apart from other cryptocurrencies is the way we make the virtual currency available to other people, by means of implementing a global, retail distribution network by co-producing the virtual prepaid cards which ensures profitability each step of the way. Profitability in terms of owning the virtual currency or in local currencies depending on which path each virtual currency owner takes: **Direct (P2P) or Online Sales.**

Consequently, we produce and promote online entrepreneurship which also helps our community provide an avenue for self-employment as Independent Contractors tasked in the proliferation of virtual currency. This is the Holy Grail to achieve massive growth and adoption.

Distribution and Ownership of virtual currency is just the start. The technologies we use are secure and advanced value transfer models or networks which we can tap to solve several other things including fintech-related problems.

With several angel investors, large companies and venture capital firms vetting in this technology, one can only ask why the little guy can't be part of this revolution in his small little way. There is a solution for those who doesn't belong in the top 1% to succeed through our system.
